

I am happy to have the opportunity to give this testimonial regarding Dr. W's care. Throughout the years I have been his patient, Dr. Wohlgemuth has combined clearly proven expertise with a real concern and pastoral care. As a result and according to those with whom I interact each day I have regained full use of my voice whether teaching, preaching or just conversation. I have already recommended Dr. Wohlgemuth to others and will continue to do that with absolutely no reservation.
